[Ariana, Tunisie](#) [ramibenarbi.com](#)

Full Stack Engineer specialized in web and mobile development, with expertise in front-end frameworks such as React.js and Next.js, and back-end technologies like Symfony. Experienced in designing responsive and high-performance user interfaces, as well as developing robust APIs. Comfortable collaborating with cross-functional teams and communicating technical concepts to stakeholders to ensure successful project outcomes.

PROFESSIONAL EXPERIENCES

Jan 2026 -
Present

Consultant Full Stack Euro Tech Conseil - ERP DEOPS

- › Design and development of the DEEOPS ERP system for distributors.
- › Implementation of RESTful APIs to optimize inter-service communication.
- › Implementation of unit and functional tests to ensure code quality and reliability.
- › Design and integration of a helper chatbot for sales and business management.
- › Development of business automation scripts to orchestrate workflows and optimize operational processes.
- › Development of user interfaces and implementation of state management.

OpenFeign Zipkin

FORMATIONS

- 2022 Computer engineering cycle, Higher Institute of Applied Sciences and Technology of Sousse.
- 2019 Applied degree in Industrial Computing, Higher Institute of Applied Sciences and Technology of Sousse.

SKILLS

Programming languages	Javascript,Html, Css , PHP, Python, TypeScript, Java.
Query languages	GraphQL, Apollo Client.
Databases	SQL, PLSQL, PostgreSQL, SQL Lite, Firebase, NoSQL.
Frameworks	NestJS, ExpressJs, Symfony, Angular, Next.js.
Execution Environment	NodeJs , Docker , SonarQube.
Version management	Github , Gitlab.
Method Conception	Agile Scrum.
Modeling Language	UML
Architectures	Microservice , MVC
Library	ReactJs , Redux , Redux Toolkit, React Query

LANGUAGES

French Bilingual
Arab Bilingual
English professional
